OUR MISSION

The Mission of the Cochin Port Trust is to provide dependable and cost-effective Port services through modern and efficient infrastructure coupled with high quality, customer-friendly services. The Port shall manage its assets and resources for optimal economic use to the Nation and the community. The Port shall strive to be the main catalyst for the economic development of the region, with a strong commitment to environmentally sound policies and safe practices. The Board of Trustees, the employees and all stakeholders of the Port shall work as a team in an open, positive, collaborative and co-operative manner. In pursuit of this Mission, the Port Trust shall be guided by the principles of integrity, ethical behavior, professional excellence, service to the community and respect for every individual.

COCHIN PORT TRUST

Cochin Port is an all-weather natural Port. It is the Major Port located nearest to the international sea routes, being only 11 nautical miles from the Gulf to Singapore route and 76 nautical miles from the Suez Canal – Far East route. The Port maintains a draft of 14.5 meters at the International Container Transshipment Terminal. Draft of 12.5 meters is available at Cochin Oil Terminal and 11 meters at the General Cargo Berths (Q8 & Q9) of Ernakulam Wharf. Draft in other berths range from 9.14 to 11.0 meters.

Features of Cochin Port:

- ISO 9001 - 2008 Certified Port, complies with all ISPS and MARPOL Regulations.
- 20 Berths and 1 SPM
- Modern Container Terminal with state-of-the-art handling equipment.
- Round the clock pilotage.
- Excellent connectivity with the hinterland centers in the States of Kerala, Tamilnadu and Karnataka.
- Emerging as a major bunkering station.

Approach Channel

Outer Channel

Length	: 16 Km
Depth	: 15.95 metres
Width	: 260 metres

Inner Channels

Ernakulam Channel

Length	: 5.032 Km.
Depth	: 13.2 metres (upto RGCT&COT)
	: 11.25 metres (at Q8, Q9 and Q10)
	: 10.5 metres (at Q5, Q6 and Q7)
	: 9.75 metres (at STB & NTB)
Width	: Turning Basin of 500 metres.

Mattanchery Channel

Length	: 2.60 Km.
Depth	: 10.75 metres (upto south end of BTP)
	: 9.75 metres (beyond BTP)
Width	: 183 metres.

ICTT, Vallaradam

Length	: 605 metres
Draft	: 14.5 metres
Width	: turning basin of 670 metres

Location of Fair way Buoy

Latitude	: 09° – 58' N
Longitude	: 76° – 16' E

Sl. No	Berth Name/No.	Type of Berth	Permissible draft (mtrs)	Quay length (mtrs)

16	ICTT (V2 & V3)	Containers	14.50	600
17	LNG	LNG	12.50	376.50

India's first e-Port: Cochin Port is the first Major Port to implement a comprehensive Enterprise Resource Planning (ERP) on a SAP platform. The e-Port integrates all functions of the Port. The e-Port provides a real time interface with regulatory authorities like the Customs, Port Users, Banks and the Port Community System of the Indian Ports Association and provides a single window facility to the trade for filing applications, receiving service bills, payments and enquiries. The e-Port project has brought in accuracy, speed, efficiency and transparency in all our activities, leading to good governance.

MAJOR DEVELOPMENTAL PROJECTS IN COCHIN PORT TRUST

Cochin Port is known for its two mega projects, the International Container Transshipment Terminal (ICTT) and the LNG terminal.

ICTT, Vallarpadam: The ICTT project in Vallarpadam SEZ has been developed as India's only transshipment terminal. It can handle container ships of 8000+ TEU capacities at 14.5 metre draft. This state-of-the-art terminal will be built up in 3 phases to 1800m berth length with a capacity of 3 million TEUs. The project is executed on BOT basis by M/s. India Gateway Terminal Pvt. Ltd, a subsidiary of M/s Dubai Port World (DPW). The first phase of the ICTT consisting of a 600 m berth was commissioned on 11-2-2011.

LNG Re-gasification Terminal: M/s Petronet LNG Ltd. has set up a 5 MMTPA LNG Terminal and Re-gasification Plant in Puthuvypeen at Cochin Port. This is South India's only operational LNG terminal. The Prime Minister dedicated the LNG Terminal to the Nation on 4-1-2014. This terminal also does LNG bunkering, and is the only LNG bunkering facility in South Asia.

International Cruise Terminal: Cochin Port has an International Cruise Terminal. The facilities include an air-conditioned Passenger Lounge, Customs and Immigration Counters, Luggage Counter, Public Address system, Drinking Water and Modern Toilets. The air-conditioned Passenger Facilitation Centre, named "Samudrika", has an area of 1,500 sq.m and a 4,500 sq.m. Convention Centre, named "Sagara", alongside the Cruise Jetty at NCB. The Seaport Immigration Check Post is equipped with APIS to enable speedy clearance of passengers. Around 40 cruise vessels call at Cochin every year. The facility is also used during the non-cruise season for hosting conventions and exhibitions.

Projects under Development in Cochin Port

Cochin Port Trust has taken up a slew of mega developmental projects which are in various stages of implementation. Some of them are listed below:

- 1) Development of an International Ship Repair Facility:** The Port has awarded a project for development of an International Ship Repair Facility to the Cochin Shipyard Ltd. (CSL). The facility is being developed on 41 acres of land on the western side of Willingdon Island along the Mattancherry channel. CSL is investing around Rs.970crores in the venture. The facility will have a dry dock (66 m x 12.5 m x 4 m), slipway and a Ship Lift and Transfer System for 6 vessels. The Ship Lift System would be approx. 120 m long, with a 30 m wide lifting platform, and have capacity to handle light ship weights upto 6,000 tonnes, LOA 130 m and beam 25 m. The facility will enable ships visiting Cochin Port to undergo both floating as well as docking repairs.
- 2) Multi-User Liquid Terminal (MULT):** Cochin Port Trust and Indian Oil Corporation Ltd. are jointly developing a 4.10 MMTPA Oil-cum-LPG Jetty at Puthuvypeen. When complete, it can berth vessels with LOA up to 230 m, 13 m draft and 80,000 DWT. The construction work will be completed by September, 2017. The jetty, when functional, will give access to 100 acres of tank farms in the Puthuvypeen Port Based SEZ. 21 acres of this SEZ has already been allotted to BPCL and HPCL.

The jetty will also serve as an International Bunkering Terminal for supplying bunkers to vessels calling at the Port as well as at the anchorage. The Commerce Ministry has sanctioned Rs.15 crores as assistance under ASIDE for a barge jetty adjacent to the MULT jetty for bunkering, which can handle barges with capacity ranging from 500 to 2,500 DWT.

- 3) **Free Trade Warehousing Zone (FTWZ) on Willingdon Island:** Cochin Port Trust is developing a 100 acre FTWZ in the South End of Willingdon Island. The Commerce Ministry has already given the approval for the FTWZ. This will be beneficial to consolidators for basing their warehouses.
- 4) **Refurbishment and Capacity Enhancement of COT, NTB & STB:** Cochin Port has awarded this project for Rs.22.45 crores. Ministry of Shipping has sanctioned Rs.14.9625 crores under Assistance to Coastal Shipping Berth. The balance is being funded by BPCL. The work will be completed by September, 2016. Apart from this, the Port is taking up refurbishment of STB for BPCL for handling plant fuel by laying heat traced pipelines.
- 5) **Bitumen Complex:** The Port is negotiating with HPCL for developing a bitumen handling facility in the site adjacent to Q4 terminal. This will serve the requirements of Kerala when Kochi Refinery stops production of bitumen.
- 6) **Study for Implementing Nautical Depth Concept in Cochin Port:** The Port is trying to implement the nautical depth concept for reducing maintenance dredging expenditure. This is being attempted in an Indian Port for the first time. It is expected to reduce the maintenance dredging expenditure substantially. This three season study will be completed by September, 2016.
- 7) **Decongesting Vallarpadam:** Cochin Port has taken up the conversion of the second GIDA bridge as an ROB and the construction of a flyover in front of the exit gate of the ICTT on the LHS of the NH 47-C on Vallarpadam to decongest the area at a cost of Rs.60 crores. The work is expected to be completed by September, 2016. Apart from this the Port is developing a Truck Parking Terminal on Vallarpadam in association with HPCL.
- 8) **Cement Hub:** Cochin Port is fast emerging as a cement hub with Ambuja Cements Ltd, UltraTech Cements Ltd. and Zuari Cements Ltd. all having cement handling terminals. Penna Cements Ltd. have started construction of their facility and are expected to commission it by April, 2017, while Malabar Cements Ltd. is in the preliminary stage.
- 9) **Business District and Hospitality Node:** Cochin Port Trust has certain areas which are not accessible to shipping. It intends to use these areas for commercial purposes. 7.88 hectares of land at the southern end of Willingdon Island on the National Highway has been set apart for development of a Business District. 22.38 hectares at the southern-most tip of Willingdon Island with waterfront on three sides has been earmarked for a hospitality and convention complex.
- 10) **Cochin Outer Harbour Project:** The Port is planning an Outer Harbour. The two breakwaters are estimated to cost about Rs.3,700 crores. The Northern Breakwater is expected to yield around 2,600 acres of land and the Southern Breakwater 650 acres of land. Reclamation is estimated to cost Rs.2,800 crores. Studies by IIT, Madras and modeling by CWPRS, Pune show that coastal erosion in the areas at the mouth of the Port can be considerably reduced and that siltation in the Port channels will go down by 40% if two breakwaters are constructed. The EIA is in progress.
- 11) **Grain Terminal:** Considering that Kerala imports more than 3 million tonnes of rice per annum from other States apart from 3 lakh tonnes of wheat and pulses, the Port is trying to catalyze investments in BOT mode for a mechanized Grain Terminal.
- 12) **Cargo Park:** The Port is trying to develop 1 million sq.ft of warehousing space to attract traffic. The Port has earmarked 45 acres of land for the purpose.
