

Traffic Growth at ICTT

The total Container Traffic at ICTT Vallarpadam exceeded 3,66,376 TEUs (*i.e. the total containers handled in last financial year 2014-15*) today i.e 42 days ahead of completion of current financial year (2015-16). (A brief growth pattern at ICTT is given below.)

The extrapolated Container Traffic for the current financial year is 4,15,821 TEUs. i.e a growth of 13.5 % over the last year. The traffic growth at ICTT has been varying between -1 to 8 % during the last five years and the current trend in growth hints at a turnaround for the project. The Terminal could attract more containers from Coimbatore area thanks to the efforts taken by the Govt of Kerala to ease procedures at the check posts at Walayar and on the route from Walayar to Vallarpadam. The commencement of weekly train by CONCOR from Irugur (Coimbatore) to Vallarpadam and back has also helped attracting more business to the Terminal.

ICTT – Growth Pattern			
Year	Traffic (TEUs)	Growth in Traffic over Previous Year (TEUs)	Growth in Traffic over Previous Year (%)
2015-16* extrapolated	415821	49445	13.50
2014-15	366376	20172	5.83
2013-14	346204	11279	3.37
2012-13	334925	-2128	-0.63
2011-12	337053	24864	7.96
