

**NOTICE INVITING BUDGETARY OFFER FOR THE INSTALLATION OF FRS ENABLED
CCTV SYSTEM AT SAGARIKA, ERNAKULAM WHARF**

Cochin Port Authority is intending to install Facial Recognition System (FRS) enabled CCTV systems at international cruise terminal of Cochin Port Authority as per the proposed plan given below. The proposed plan is to install FRS enabled system at port and to integrate the same with NATGRID in order to strengthen maritime security and facilitating identification of wanted/ suspected persons. You are requested to submit the most viable techno-commercial solution with budgetary rates for installing FRS enabled CCTV (at the in & out gates) through e-mail to dycmeele@cochinport.gov.in and anna.sunny@cochinport.gov.in, on or before 05.10.2026, 15.00 hrs.

Points to be noted: -

1. Integration of NATGRID and Port system would be based on Application Programming Interface (API)
2. Secure connectivity would be established between NATGRID and Port System
3. The image of suspect/person of interest will provided by NATGRID (through API) and port need to return results of matching faces that have got captured in CCTV along with Confidence Score assigned Port Facial Recognition system (FRS)
4. Retention period for recorded data: Minimum 2 months
